

BX-01 SET 1

FASE 1

Posizionare i vetri fissi laterali sul piatto doccia, fissarli in bolla ai fissaggi laterali
Esempio di fissaggi laterali Metalglas (OPTIONAL)

PHASE 1

Place the side fixed glasses on the shower tray and fix them with bubble level to the side fittings
Example of Metalglas side fittings (OPTIONAL)

SCHRITT 1

Seitenteile auf die Duschtasse positionieren, an der Seite ins Lot bringen
Beispiel Seitenprofil Metalglas (optional)

BX-01 SET 1

FASE 2

Come fatto in precedenza, posizionare i vetri fissi laterali sul piatto doccia, fissarli in bolla ai fissaggi laterali
Esempio di fissaggi laterali Metalglas (OPTIONAL)

PHASE 2

*A - As previously done, place the side fixed glasses on the shower tray and fix them with bubble level to the side fittings.
Example of Metalglas side fittings (OPTIONAL)*

SCHRITT 2

A - Wie vorher Seitenteile auf die Duschtasse positionieren, an der Seite ins Lot bringen
Beispiel Seitenprofil Metalglas (optional)

FASE 3

Dopo aver tagliato a misura le barre BX-C55, siliconare l'angolo BX-C57 alle barre
Posizionare la guida a terra BX-C50 e siliconare (fig. A)
Infine siliconare le barre montate sul piatto doccia

PHASE 3

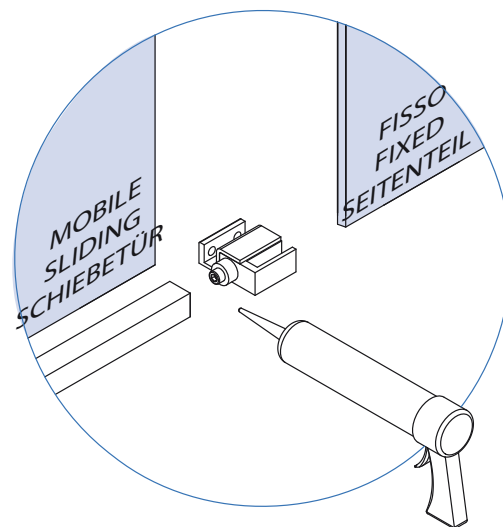

After having cut-to-size the BX-C55 bars, put some silicon on the BX-C57 angle and fix it to the bar (Picture A). Place the BX-C50 rail on the ground and put some silicon (Picture B). Finally, put some silicon on the bars assembled on the shower tray. (Picture C).

SCHRITT 3

Zuerst Profileleiste BX C-55 auf Maß zuschneiden, Eckteil BX-C57 mit Silikon an der Profileleiste befestigen
Bodenführung BX-C50 positionieren und mit Silikon befestigen (siehe A)
Zum Schluss die montierten Profileleisten an der Duschtasse mit Silikon befestigen

BX-01 SET 1

FASE 4

- A - Infilare gli stopper BX-C30 alle estremità delle barre BX-C40
- B - Montare e siliconare i tappi BX-C45 a fondo barra
- C - Montare l'angolo BX-C20
- D - Fissare la barra montata ai vetri fissi laterali tramite i punti di fissaggio BX-C70

PHASE 4

- A - Insert the BX-C30 stoppers in the BX-C40 bar ends
- B - Assembly and put some silicon on the BX-C45 caps at the bar ends
- C - Assembly the BX-C20 angle.
- D - Fix the bar assembled on the side fixed glasses through the BX-C70 fixing points

SCHRITT 4

- A - Stopper C-30 auf die Schienen BX-C40 aufsetzen
- B - Die Abdeckungen BX-C45 am Ende der Schienen montieren und mit Silikon fixieren
- C - Eckverbindung BX-C20 montieren
- D - Die montierte Schiene an den Seitenteilen an den 4 Bohrungen mit BX-C70 fixieren

ECCENTRIC ADJUSTMENT ± 2
FEINEINSTELLUNG MIT EXZENTER ± 2

BX-01 SET 1

FASE 5

Avvitare le ruote BX-C10 al vetro mobile quindi appendere il vetro alla barra

PHASE 5

Screw the BX-C10 wheels to the sliding glass, then hand the glass to the bar

SCHRITT 5

Die Rollen BX-C10 an die Schiebetür schrauben, dann die Tür auf die Schiene hängen

BX-01 SET 1

FASE 6

Ripetere l'operazione precedente con l'altro vetro, avvitare le ruote BX-C10 al vetro mobile quindi appendere il vetro alla barra

PHASE 6

Repeat the previous operation with the other glass:

Screw the BX-C10 wheels to the sliding glass, then hang the glass to the bar

SCHRITT 6

Vorgang mit der anderen Schiebetür wiederholen:

Die Rollen BX-C10 an der Schiebetür anschrauben, dann die Tür auf die Schiene einhängen

BX-01 SET 1

FASE 7

Avvitare l'antiscandalo e regolarlo tramite l'eccentrico in modo che le due ante mobili non possano scendere e siano in sicurezza

PHASE 7

Screw the secure locking device and adjust it through the cam fitting, not to make the two sliding doors go down and to protect them.

SCHRITT 7

Aushebeschutz montieren und mit Exzenter regulieren, damit die beiden Schiebetüren sich nicht aushängen können und sicher sind

BX-01 SET 2

FASE 2

Dopo aver tagliato a misura la barra BX-C55 , siliconare il tappo BX-C60 (fig.A).

Posizionare la guida a terra BX-C50 e siliconare (Fig.B).

Infine siliconare la barra montata sul piatto doccia (Fig.C).

PHASE 2

After having cut-to-size the BX-C55 bar, put some silicon on the BX-C60 cap (Picture A). Place the BX-C50 rail on the ground and put some silicon (Picture B). Finally, put some silicon on the bar assembled on the shower tray (Picture C).

BX-01 SET 2

FASE 3

Dopo aver tagliato la barra BX-C43 a misura, fissare gli attacchi a muro BX-C90 da entrambi i lati del vano doccia.

PHASE 3

After having cut-to-size the BX-C43 bar, fix the BX-C90 wall hooks from both sides of the shower tray

SCHRITT 3

Nachdem die Profilleisten BX-C43 zugeschnitten sind, werden die BX-C90 Wandhaken auf beiden Seiten der Führungsschiene fixiert

BX-01 SET 2

FASE 4

Infilare lo stopper BX-C30 all' estremità della barra , poi posizionare e fissare la barra nell' attacco a muro BX-C90.

PHASE 4

Insert the BX-C30 stopper in the bar end, then place and fix the bar to the BX-C90 wall hook

SCHRITT 4

BX-C30 Stopper am Profilende fixieren, dann das Profil mit BX-C90 Wandhaken positionieren und befestigen

BX-01 SET 2

FASE 6

Avvitare le ruote BX-C10 al vetro mobile, poi appendere il vetro alla barra.

PHASE 6

Screw the BX-C10 wheels to the sliding glass, then hang the glass to the bar.

SCHRITT 6

Die BX-C10 Rollen auf die Schiebetür schrauben und die Tür in die Führungsschiene einhängen

BX-01 SET 2

FASE 7

Avvitare l' antigancio e regolarlo tramite l'eccentrico , in modo che l' anta mobile non possa scendere e sia in sicurezza.
Regolare lo stopper BX-C30 sulla barra in modo da avere l' apertura desiderata.
Optional Avvitare il pomolo sul vetro mobile.

PHASE 7

Screw the secure locking device and adjust it through the cam fitting, not to make the sliding door go down and to protect it.
Adjust the BX-C30 stopper on the bar, to reach the desired opening.
OPTIONAL Screw the knob on the sliding glass.

SCHRITT 7

Aushebeschutz fixieren, damit sich die Tür nicht senkt.
BX-C30 Stopper auf der Schiene in der gewünschte Öffnungsbreite montieren.
OPTIONAL Knopf an der Schiebetür befestigen.

REGOLAZIONE ECCENTRICA ± 2
ECCENTRIC ADJUSTMENT ± 2
FEINEINSTELLUNG MIT EXZENTER ± 2

BX-01 SET 3/4

In caso di BX-01 SET 3 o 4, fissare il vetro fisso laterale, con gli appositi profili (Esempio fissaggi OPTIONAL Metalglas) poi agganciare la barra ai vetri fissi laterali con il BX-C80.

In case of BX-01 SET 3 or 4, fix the side fixed glass with the proper profiles (Example of Metalglas OPTIONAL side fittings), then hook the bar to the side fixed glasses with BX-C80.

Beim BX-01 SET 3 oder 4 ist das Seitenteil mit eigenen Profilen zu positionieren (Beispiel: Seitenprofil Metalglas, optional), dann wird das Profil des Seitenteils mit BX-C80 befestigt
